

ABDELRHMAN SALEH HELAL

GIS & Remote Sensing Specialist | Spatial Analysis | Cartography & Urban Planning Support

Mit Ghamr, Dakahlia, Egypt | +20 109 260 8662 | abdousaleh036@gmail.com | [linkedin.com](#)]

PROFESSIONAL SUMMARY

GIS and Remote Sensing graduate with hands-on experience in spatial analysis, academic research mapping, and urban-planning support. Produced 50+ thematic, analytical, and decision-support maps for a PhD dissertation in Urban Planning Geography at Benha University, covering urban growth, land use, population density, public services, hydrology, and groundwater resources. Contributed to three faculty research projects submitted for academic promotion to Professor rank, including a spatial analysis study of religious sites in Old Cairo. Proficient in ArcGIS Pro, ERDAS Imagine, QGIS, and Google Earth Engine, with working knowledge of Python for GIS workflows. Currently pursuing a Master's degree at Menoufia University (enrolled August 2025) to deepen expertise in geospatial analysis. Seeking to contribute to impactful geospatial, urban-planning, and development projects at an international level.

CORE COMPETENCIES

- GIS Software: ArcGIS Pro, ArcGIS Desktop, ArcGIS Online, QGIS
- Remote Sensing: ERDAS Imagine, Google Earth Engine, Google Earth Pro, Satellite Image Classification & Enhancement
- Spatial Analysis: Suitability Analysis, Hydrological Analysis, Change Detection, Terrain Analysis, Land Use Mapping
- Cartography & Design: AutoCAD, Choropleth Mapping, Topographic Mapping, Thematic Map Design, Cartographic Modeling
- Data Management: Geodatabase Management, Digitizing, Georeferencing, Field Survey (GPS & Total Station)
- Programming & Productivity: Python (GIS scripting fundamentals), Microsoft Office

PROFESSIONAL EXPERIENCE

Surveying & GIS Project Team Leader | Faculty of Arts, Menoufia University (Egypt) May 2024 (1 week)

- Led a multidisciplinary student team on an integrated field-surveying and GIS project in Wadi El-Shallal, Matrouh, coordinating GPS and total-station data collection.
- Processed spatial data in ArcGIS Pro to produce topographic and network maps, supporting hydrological studies and land-suitability assessments.
- Applied georeferencing, digitizing, and thematic map design to ensure high spatial data accuracy and cartographic quality.

Academic Promotion Research Contributor | Faculty of Arts, Menoufia University Oct – Nov 2025 (6 weeks)

- Contributed to three faculty research projects submitted for academic promotion to Professor rank, including "Spatial Analysis of Places of Worship in Old Cairo District."
- Produced high-quality thematic and analytical maps that supported urban-planning decision-making and research conclusions.

PhD Research Assistant – Urban Planning | Benha University Jun 2025 – Jan 2026 (7 months)

Supported a PhD dissertation in Urban Planning Geography by producing and analyzing 50+ thematic and analytical maps.

- Covered urban growth, land use, population density, public services, hydrology, and groundwater quality using advanced GIS techniques to inform planning decisions.

TRAINING & PROFESSIONAL DEVELOPMENT

Introduction to Geographic Information Systems (Level 1) | GIS Unit, Faculty of Arts, Menoufia University

Aug 2023 – 21 hrs

- Built foundational knowledge of spatial data types, GIS software fundamentals, and practical GIS applications.

GIS Editing & Data Refinement Techniques (Level 2) | GIS Unit, Faculty of Arts, Menoufia University *Aug – Sep 2023 – 21 hrs*

- Refined skills in GIS data editing, attribute correction, and topological validation.

Certified Remote Sensing Specialist (RSS)™ & Professional (RSP)™ Tracks | Brilliant Remote Sensing Labs *2024*

- Completed coursework in satellite fundamentals, ERDAS Imagine-based image processing, geometric correction, visual interpretation, digitizing, classification, image enhancement, and satellite map production.
- Advanced track covered image subsetting/mosaicking, advanced classification, image differencing, terrain analysis, 3D/virtual GIS simulation, and satellite integration and testing with the EDUCAN CanSat (Orion Space).

Fundamentals of Remote Sensing | NASA

Oct 2025

GIS & ArcGIS Pro Self-Paced Courses (14 courses) and MOOCs | ESRI Academy

2025

- Coursework included data acquisition, ArcGIS Pro basics, coordinate systems, change detection, ArcGIS Online content sharing, deep learning in ArcGIS Pro, spatial data management, Python for Everyone, and spatial data science.

CERTIFICATIONS

- Certified Remote Sensing Specialist (RSS)™ – Brilliant Remote Sensing Labs (April 2024)
- Certified Remote Sensing Professional (RSP)™ – Brilliant Remote Sensing Labs (November 2024)
- Fundamentals of Remote Sensing – NASA (October 2025)
- GIS Basics & ArcGIS Pro Certificates – ESRI Academy (April 2025)
- Spatial Data Science: The New Frontier in Analytics – ESRI (October 2025)
- The ArcGIS Imagery MOOC: Foundations and Frontiers – ESRI (November 2025)

EDUCATION

Master's Degree, Geography / GIS specialization (In Progress) | Menoufia University – Faculty of Arts

Enrolled Aug 2025

Bachelor's Degree in Geography (GIS, Remote Sensing & Surveying) | Menoufia University – Faculty of Arts,
Department of Geography

Sep 2021 – Jun 2025

GPA: 3.19 / 4.00 (B+)

LANGUAGES

- Arabic – Native
- English – Good (Professional Working Proficiency)
